

Fiber Armchair

The Fiber Armchair brings a new perspective to the iconic shell chair through its innovative composite of plastic and wood fibers. Non-upholstered variants of the Fiber Armchair are made from a combination of recycled plastic (min. 80% is recycled) and FSC™ (FSC-C028824) certified wood fibers. The wood fibers blend into the surface for a matte finish and add a soft, inviting touch. The Fiber Armchair is designed with friendly, embracing curves that provide extensive comfort to its user while taking up little space in the room. Please note that variants with recycled plastic and FSC™-certified wood will be available in North America in spring 2022.
