

Louis Ghost

Louis Ghost is the world's bravest example of the injection of polycarbonate in a single mould. A chair inspired by the Louis XV chair, the baroque ideotype, reinterpreted by Philippe Starck to amaze, inspire and beguile. Despite its evanescent and crystalline image, Louis Ghost is stable and strong, collision-proof and capable of withstanding the effects of the weather; and it can be stacked in piles of up to six. A very charismatic product with enormous aesthetic appeal, perfect for every setting, be it domestic or professional.
