

Victoria Ghost

A chair with classic line, it has a rounded back which recalls the shape of antique medallions, while the seat is linear and geometric. Victoria Ghost is available in clear or coloured polycarbonate and is made in a single injection mould. It is stable and strong, collision-proof and capable of withstanding the effects of the weather. A very charismatic product with a personality all of its own, the perfectly elegant and versatile addition to any setting.

Brand: **KARTELL**

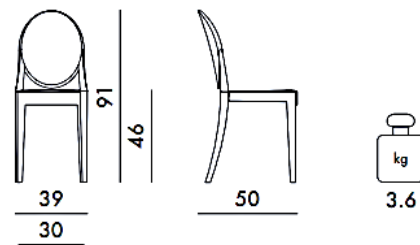

Item type: Chair
